QUALIFICATIONS GUIDE FOR EAS APPENDIX 4 - REQUIREMENTS FOR QUALIFIED SUPERVISORS

Overview

This Guide has been developed under the direction of the EAS Management Committee, to provide supporting information to Appendix 4 of the Electrotechnical Assessment Specification (**October 2021**), which is valid from 1st **October** 2021. The Qualification Guide is to be used by Enterprises, scheme applicants and Certification / Registration Bodies to identify relevant qualifications acceptable to scheme operators, as well as providing guidance for applicants when the required qualifications are not held.

Introduction

Table 4A defines the application routes for persons who undertake Electrotechnical work, in order to apply to become a Qualified Supervisor. Tables 4B to 4F list the relevant routes for each work category and specify the accepted qualifications.

Successful applicants will be able to demonstrate at Assessment the required combination of technical knowledge, occupational training and practical skills. This is usually achieved through completion of an industry-approved apprenticeship, or, for experienced workers, for example through accredited qualifications using the Experienced Worker Assessment, as well as Recognition of Prior Experiential Learning (RPEL).

It is acceptable to permit new applications from an existing or previously recognised Qualified Supervisor, provided that they have:

- i) been a Qualified Supervisor within two years of the application; and
- ii) can provide a letter or similar evidence from the previous scheme provider confirming their Qualified Supervisor status and the scope of work previously assessed, which must be equal to the scope of work being applied for.

An applicant Qualified Supervisor will need to have at least 2 years' evidence of responsibility for the technical standard of electrotechnical work and evidence of ongoing Continuing Professional Development.

If the applicant's electrotechnical qualifications are not listed in the following tables, please contact the relevant certification or registration body for further guidance. Contact details for the Electrical scheme operators are available [here](#).

QUALIFICATIONS GUIDE FOR EAS APPENDIX 4 - REQUIREMENTS FOR QUALIFIED SUPERVISORS

Table 4A Overview of Applicable Minimum Technical Competence Requirements by Work Category

Work Category*	Underpinning Core Technical Competence		Wiring Regulations	Initial Verification	Periodic Inspection and Testing
	Dwellings	All			
A1 Electrical installations up to and including 1000V AC or 1500V DC	Table 4B	Table 4C	Table 4D	Table 4E	Table 4F
A1.1 Dwellings (BS 7671)	✓	✓	✓	✓	-
A1.2 Other than Dwellings (BS 7671)	-	✓	✓	✓	✓
A1.3 Temporary electrical systems (BS 7909)	-	✓	✓	✓	✓
A1.4 Dwellings - defined scope (BS 7671)	✓	✓	✓	✓	-
A2 Periodic inspection and testing					
A2.1 Dwellings (BS 7671)	-	✓	✓	-	✓
A2.2 Other than Dwellings (BS 7671)	-	✓	✓	-	✓

*For full details of the scope of the work categories above refer to Appendix 1 of the [Electrotechnical Assessment Specification](#).

Table 4B Underpinning Core Technical Competence, limited to dwellings only

Route	Recognised Qualifications or Equivalent
1	Level 3 Certificate in Installing, Testing and Ensuring Compliance of Electrical Installations in Dwellings
2	Industry- approved apprenticeship and recognised historical industry qualifications
3	Electrotechnical Experienced Worker Assessment, previously known as Mature Candidate Assessment, via the Recognition of Prior Experience and Learning (RPEL)

QUALIFICATIONS GUIDE FOR EAS APPENDIX 4 - REQUIREMENTS FOR QUALIFIED SUPERVISORS

Table 4C Underpinning Core Technical Competence, all Electrotechnical Work

Route	Recognised Qualifications or Equivalent
1	Level 3 Electrotechnical apprenticeship, incorporating end point assessment of competence
2	Industry-approved apprenticeship and recognised historical industry qualifications
3	Electrotechnical Experienced Worker Assessment, previously known as Mature Candidate Assessment, via the Recognition of Prior Experience and Learning (RPEL)

Note: For those persons undertaking Assessment for work category A1.3 Temporary electrical systems covered by BS 7909 (as amended), as defined in Appendix 9 of the [Electrotechnical Assessment Specification](#), this route can be augmented by 'C&G 181 Entertainment and Theatre Electrician' or equivalent.

Other Required Qualifications

Unless included within a formal qualification defined in Tables 4B or 4C, the applicant shall also hold the following qualifications, in accordance with the requirements of Table 4A

Table	Purpose	Qualification
4D	Wiring Regulations*	Level 3 Award in the Requirements for Electrical Installations: BS 7671 (as amended)
4E	Initial Verification*	Level 3 Award in the Initial Verification of Electrical Installations
4F	Periodic Inspection	Level 3 Award in the Periodic Inspection and Testing of Electrical Installations

*Each of these awards may be achieved within a combined qualification(s).

NVQ Level 3 in Installation and Commissioning Electrotechnical Systems*	City & Guilds 2355	Q1052155
Electrical Installation Course Work (A and B Certificates)	City & Guilds	N/A
Level 3 Certificate in Electrical Installation Work C Course	City & Guilds	100/1291/6
Installing and Commissioning Electrotechnical Systems: Electrician at Level 3**	SVQ	
SVQ Electrotechnical Services (Electrical Installation Building and Structures) Level 3**	SVQ	
Certificate in Electrical and Electronic Craft Studies	City & Guilds 236 Part 1 and Part 2	
	City & Guilds 2360* Part 1 and Part 2	
	City & Guilds 2367 and 2368*	
	City & Guilds 51A and 51B (A and B Certs)	

*The achievement measurement competency assessment AM2 is also required.

**This will have included successful completion of the final integrated competence assessment (FICA)

QUALIFICATIONS GUIDE FOR EAS APPENDIX 4 - REQUIREMENTS FOR QUALIFIED SUPERVISORS

Table 4B Underpinning Core Electrical Competence, limited to dwellings only

Route 3 – Experienced Worker

This route is used where the scheme applicant does not fit into Route 1 and 2. If this entry route is utilised for an applicant then the applicant MUST hold the Experienced Worker qualification and the appropriate industry achievement measurement competency assessment (AM2 or AM2E). The Experienced Worker Assessment is aligned to the Level 3 Electrotechnical apprenticeship standard and recognises existing industry work experience and prior learning carried out to date.

Current Qualifications

This is the [Electrotechnical Experienced Worker Assessment](#). Registrations available from July 2020

Qualification Title	Awarding Organisation	Qualification Number
Level 3 Electrotechnical Experienced Worker Qualification*	City & Guilds 2346	603/6294/7
	EAL	603/5982/1

*The achievement measurement competency assessment AM2E is also required.

Older Qualifications

This is the former JIB Mature Candidate Assessment Process. Registrations available until November 2020

Qualification Title	Awarding Organisation	Qualification Number
Level 3 in Electrotechnical Services Experienced Worker*	City & Guilds 2356-99	N/A
	EAL	N/A

*The achievement measurement competency assessment AM2 is also required.

SQA [SELECT] Customised Award in Inspection and Testing, including Periodic Inspection	SQA [SELECT]	

QUALIFICATIONS GUIDE FOR EAS APPENDIX 4 - REQUIREMENTS FOR QUALIFIED SUPERVISORS

Qualifications from outside the UK

When an applicant for a proposed QS has been trained outside the UK they need to demonstrate that they have fully met the same UK qualification standards as if they had been trained in the UK.

The Electrotechnical Skills Partnership (TESP) and ECS have developed a new service with the qualifications recognition body Ecctis (formally known as UK Naric), that will map non-UK electrical qualifications against the specific knowledge requirements of the Experienced Worker Assessment referenced in this Qualifications Guide.

The Electrotechnical Experienced Worker Assessment enables those who trained outside of the UK to demonstrate they meet the requirements of the relevant underpinning core technical competence referred to in Table 4A of this Guide.

In many cases, the applicant's existing qualifications will be recognised. However, in all cases, existing qualifications must be assessed and verified that they meet the same criteria as the UK requirements by taking the Ecctis Electrotechnical Skills Statement.

The service will provide the applicant QS with an 'Industry Skills Statement' – further information can be found here - <https://www.ecctis.com/Qualifications/SOCCS/Default.aspx>

There will be no exemptions from the practical performance elements – even if the applicant QS has significant practical experience of working overseas, they will still need to be working in the UK to complete the practical elements of the Experienced Worker Assessment. Practical assessments must be completed using work within the UK which can be verified/observed.
